

Durable workwear twill

A structured base for demanding shifts and polished servicewear.

Material profile

Hard-wearing woven twill

Typical weight: 210–240 GSM

Best suited to

Security uniforms

Housekeeping

Facilities teams

Care instructions

- Machine wash warm, up to 40°C.
- Wash inside out to preserve trims and surface finish.
- Avoid chlorine bleach.
- Iron on a medium setting if needed.

Buying note

Choose twill for workwear that needs more structure, abrasion resistance, and a consistent presentation through active shifts.
