

Performance knit

Flexible, lightweight, and designed for active movement.

Material profile

Technical performance knit

Typical weight: 150–180 GSM

Best suited to

PE kits

Delivery teams

Active workwear

Care instructions

- Machine wash cold.
- Skip fabric softener where possible.
- Hang dry when practical.
- Do not iron directly over prints or heat-applied branding.

Buying note

Choose performance knit for roles that value flexibility, lighter weight, and a material that supports active routines.
